			Profiler)
Thurber Engineering Ltd.	Suite 200, 9636 – 51 Avenue, Edmonton, AB T6E 6A5	Mr. Campbell Chow, P.Eng. (780) 438-1460	QA(G.B.P.) Marshall Mix Design
WSP	7710 Edgar Industrial Court Red Deer, AB, T4P 2H6	Mr. Joseph Luca, P.Eng. (403) 342-7650	QA(G.B.P.) QA(Superpave) Marshall Mix Design Superpave Mix Design Smoothness (SSI CS9300 Inertial Profiler)
Wood Environmental & Infrastructure Solutions	5681 – 70 Street Edmonton, AB, T6B 3P6	Mr. Tyson Tremblay, P.Eng. (780) 989-4528	QA(G.B.P.) QA(Superpave) Marshall Mix Design Superpave Mix Design

Updated: August 2018

Pre-Qualification Categories

- **QA (Grading, Base, Paving)** Required to provide QA testing services on all regular construction projects (except Superpave).
- **QA (Superpave)** Required to provide QA testing services on an all Superpave projects.
- **Marshall Mix Design** Required for firms providing Marshall mix designs on all projects.
- **Superpave Mix Design** Required for firms providing Superpave mix designs on all projects.
- **Pavement Smoothness** All paving projects now specify the use of High Speed Inertial Profilers and International Roughness Index (IRI) acceptance criteria. Each inertial profiler and operator is to be tested each year by completing a minimum of five runs over an IRI verification test site. The test data is to be forwarded to Technical Standards Branch where it will be evaluated for accuracy and repeatability. Information on the location of the sites and suitable testing times will be provided each spring.
